

I-1.2 Summary of Chinese manganese acetate producers

Manganese acetate liquid solution is mainly produced in East China, where concentrates most PTA manufacturers. Due to the inconvenience of transportation of liquid solution products.....

Note: * liquid Mn(Ac)₂ refers to solution with 4% Mn content.

** Total capacity= capacity of crystal + capacity of liquid solution × 4%/22.4%

***Total output= output of crystal + output of liquid solution × 4%/22.4%

II-1 Import and export of manganese acetate in China

The number of manganese acetate export companies is relatively small.....

III-2.2 TMA industry

TMA (Trimellitic anhydride) is mainly used to produce trioctyl trimellitate (TOTM) and polyester resin, which is the raw material of powder coating. It's also applied in insulation materials, high-temperature curing agent, film flocculant, etc. TMA is produced from.....
