## 1 Import analysis in 2009 and Jan. ~ Oct. 2010

China's ethylenediamines supply basically depends on the import from the US, Japan, Germany and Sweden, etc. In 2009, the import volume and total import value of ethylenediamines studied in this report has been reached XX tonnes and USDXX million respectively. In addition, the total import volume and value of ethylenediamines have been also up to XX tonnes and USDXX million respectively during Jan. and Oct. 2010.

## 1.1 Ethylenediamine

Ethylenediamine is the leading kind of imported ethylenediamines both in volume and in value in China. In 2009, the import volume and total value of ethylenediamine have been up to XX tonnes and USD156 million respectively, accounting for XX% and XX% of the total ethylenediamines respectively in China. From Jan. to Oct. 2010, the import volume and total value of ethylenediamine have reached XX tonnes and USDXX million respectively.

Among all importers, there were top XX ones whose total import volume and value have reached XX tonnes and USDXX million respectively, accounting for XX% and XX% of the total imported ethylenediamine in China in 2009. Despite the changes in top XX importers, their total import volume and value have also reached XX tonnes and USDXX million respectively during Jan.-Oct. 2010.

Table 1.1-1 Import situation of main ethylenediamine importers in China, 2009

|       |                             |                   | Import value, | Average price, |
|-------|-----------------------------|-------------------|---------------|----------------|
| No.   | Importer                    | Import volume, kg | USD           | USD/kg         |
| 1     |                             |                   |               |                |
| 2     | BASF(China) Company Limited |                   |               |                |
