Categories

Key benefits to you

- Offer you reliable and real-time market intelligence
- Facilitate your strategic decision-making
- Trace competitors' dynamics
- Help you forecast market trend
- Identify risks and prevent crisis
- Slash production cost and reduce loss
- Find commercial cooperation and business development opportunities
- Open up new market
- Provide experts and scholars with authoritative information

Who needs ValoTracer

- Manufacturing enterprises
- Multinational corporations and their branches
- Trading companies
- Consultancies, analysts
- Universities
- Banks, investment institutions
- Government

Content chunk - description in detail

Content Unit Details

A 5,000t/a production line of glyphosate technical in Shandong Vicome Greenland Chemical Company (Shandong Greenland) is to put into production in late September 2008. Then, the total production capacity of glyphosate technical in Shandong Greenland will reach 12,500t/a.

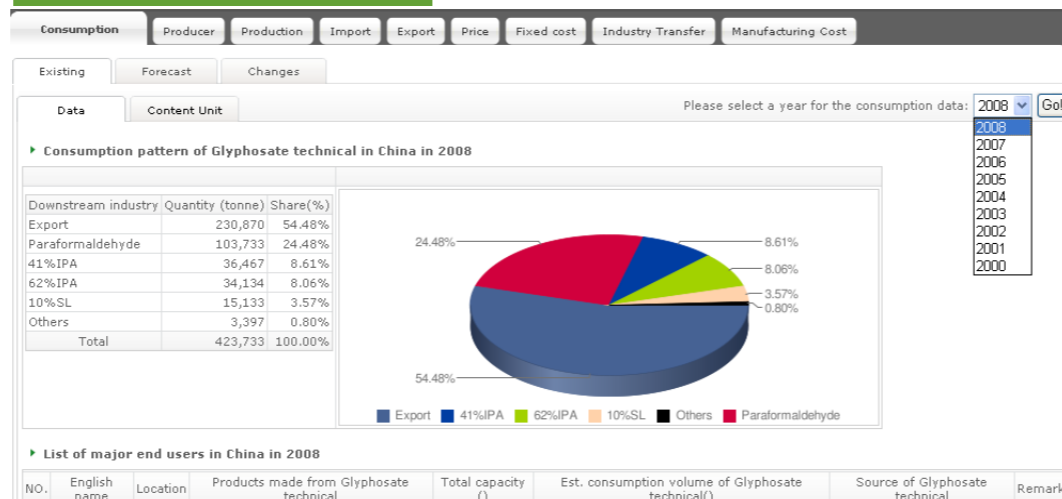

The 5,000t/a production line of glyphosate technical, located in Zhangqiu Chemical Industry Park (Zhangqiu City, Shandong province), is an expansion of glyphosate technical in Shandong Greenland. According to Ms. Chen from foreign trade department of Shandong Greenland, the company started to produce glyphosate in 2005, and currently it has launched production lines of glyphosate technical with total production capacity of 7,500t/a.

Ms. Chen says, "The expansion of 5,000t/a glyphosate technical production line, with investment of about RMB30 million (4.39 million USD), was started to construct in Q1 2008. Now the construction of the 5,000t/a glyphosate technical production line is almost finished, and it is expected to be launched in late September 2008. Thus the production capacity of glyphosate technical in Greenland will reach 12,500t/a then."

According to Ms. Chen, the 5,000t/a production line of glyphosate technical will adopt IDA route, and DEA, the key raw material in glyphosate production, will be imported.

1 Database

Traditional data format

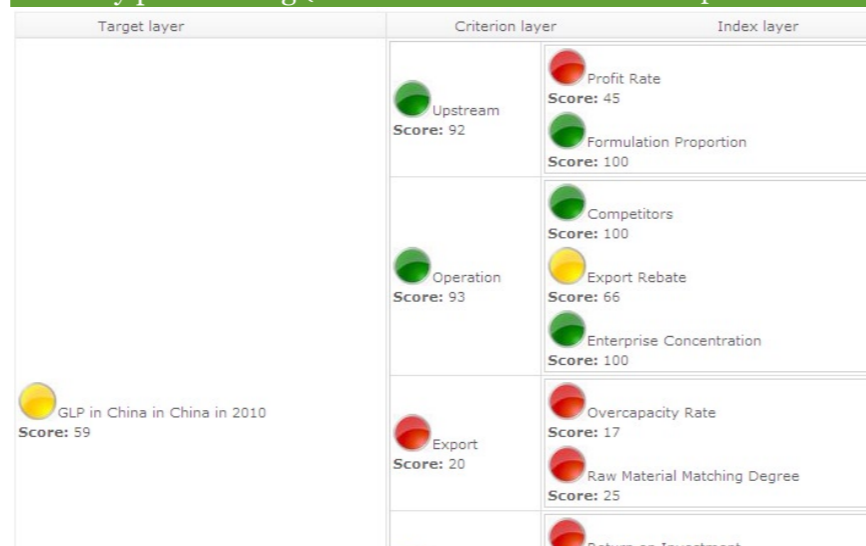

Producers' multi-dimensional info

Distribution of major Glyphosate technical producers

Major producer list of Glyphosate technical in China in 2010

Industry pre-warning (red items mean the ones need to prevent industry risk)

CCM Data & Primary Intelligence

Your Reliable
Real-time
Consultancy

ValoTracer, brand name of CCM's dynamic database, is developed based on CCM's more than ten years' consulting experience and data accumulation. All the data are connected by value chain navigation system.

Supported by abundant raw data on database, ValoTracer also provides lots of data derivatives, including analysis models and market research products, such as report, newsletter.
