2 Production situation of maltodextrin in China, 2008-2010

2.1 Overview

China began to produce maltodextrin at the beginning of the 1980s; the first workshop was built in Wuhan City, Hubei Province. However, China imported almost all maltodextrin needed before the 1990s.

Fluidification of starch was developed in 1990, which is one of the key technology projects of the 7th Five-Year Plan.

By the end of 1995, it was reported that there were [REDACTED] factories with total capacity of [REDACTED]t/a distributing in each province, municipality, autonomous region, except Tibet Autonomous Region and Hainan Province.

In 2008, the output maltodextrin expands to [REDACTED] tonnes in China, totally satisfying the domestic demand from candy industry, drink industry, flavoring and essence industry, etc. The local end users consumed most products and just [REDACTED]% of the output was exported. And these downstream industries steadily developed in the global recession with the annual growth rate of [REDACTED]%. Thanks to the demand from these domestic consumer segments, the maltodextrin industry got through the crisis.

2.2.1 Major producers

Table 2.2.1-1 Major maltodextrin producers in China, 2011

No.	Company	Situation	Raw material	DE 10%-20% price of XXX'11, USD/t
1	Zhucheng Dongxiao	Acitve	Corn starch	[REDACTED]
2	[REDACTED]	Acitve	Corn starch	[REDACTED]
3	[REDACTED]	Acitve	Corn starch	[REDACTED]
4	[REDACTED]	Acitve	Corn starch	[REDACTED]
