Fermentation China News

China is a large fermentation industry country with the annual production value of more than RMB130 billion. In China, the fermentation products have been widely applied to more than 20 industries including pharmaceutical, light manufacturing, textile, chemical, energy resource, environmental protection, agriculture, etc.

The output in China, of the five major fermentation products, namely, monosodium glutamate, citric acid, enzyme preparation, barm and starch sugar has been increasing rapidly and the total output grows by an average rate of 25% annually.

Through introduction of advanced technologies from overseas, the production cost in the starch sugar industry has been reduced, and the management has been improved. Its output has increased by seven times during the past six years with the average annual growth rate of 38.3%. it now ranks No. 2 in the world nowadays. The output of monosodium glutamate accounts for 70% of the global market share, ranking No.1 in the world. China's citric acid industry is second to none in both output and trading volume in the world.

Fermentation industry has the characteristics of small investment, quick profit return and low environmental pollution. However, China's fermentation at present is faced with the problems of backward fermentation process and extraction technology, small production scale of enterprises, low production efficiency. There's great potential for China's fermentation industry. There is much room for the application of fermentation in various fields in China.

In order to find commercial opportunities in China's fermentation industry, it is of vital importance to know how to understand the situation of cooperation in China's fermentation industry, how to keep up with the up-to-date technology innovations and new segments they are being applied in China; how to keep informed of the latest information of fermentation industry and government regulations.

Fermentation China News brings you the latest information on new applications, new joint ventures and cooperation, new technologies and products, new legislations and policy, and inside stories about mergers shaping the market.

What's covered?

- Exclusive interviews with large Fermentation producers including Chinese domestic enterprise, multinational company or joint-venture.
- Latest application of Fermentation in China.
- Latest progress in technology research of Fermentation in China.
- Testing and trial production of Chinese domestic enterprise, multinational company or joint-venture.
- Contracts, merging, acquisitions and cooperation between multinational company and Chinese domestic company.

Reasons to subscribe

- To learn the latest application of fermentation technologies in various industries and the extension of application segments.
- To seize more commercial opportunities in China's fermentation industry and make timely and appropriate investment.
- To find the best business partners by focusing on the dynamics of Chinese enterprises.
- To know up-to-date policies and regulations in China fermentation industry to evaluate the investment risk exactly.
- To catch your competitors' dynamics and help you make an proper investment and cooperation prior to your competitors.
- To analyze the market trend of China's fermentation industry deeply and thoroughly.

Who needs to subscribe?

- **Monosodium glutamate, citric acid, enzyme preparation, barm and starch sugar enterprises** aiming at China's fermentation market.
- **R&D organizations** targeting China's fermentation market.
- **Raw material suppliers** focusing on China's fermentation market.
- **Investors** paying close attention to China's fermentation market.
- **Analyzers and researchers** following the development of China's fermentation market.

The subscription package includes:

- PDF newsletter delivered every month
- 12 months or 26 issues per subscription period
- Access to online archive of all previous issues with downloads
- Searchable online database of news stories
- Access to the breaking news website with regular updates
- Guaranteed breaking news
- Company-wide distribution license

**Breaking News guarantee**

We guarantee to beat the trade press with every story or your money back.

Fast and convenient

Starch sugar & sweeteners China is supplied to you as a PDF by email, ensuring you receive each issue as soon as it's published.

Welcome to subscribe regular and exclusive newsletter from CCM

CCM International Limited is an independent consulting company focused on China's market and market covering Asia Pacific Rim. CCM's expertise lies in market researches, newsletters, conferences and databases, in such industries as packaging, printing, fine chemicals, agrochemicals, food ingredients, polymers, etc. CCM has established a good reputation as one of the key knowledge providers in these industry sectors.

CCM newsletter is focused on market and technology that are in rapid development. Our aim is to ensure subscribers have the inside track on stories affecting their business to ensure that they maintain their competitive advantages in an increasingly competitive marketplace and even get more business opportunities in China.

CCM newsletters are an essential business tool for anyone hoping to be informed of the latest developments in the fast moving technologies and markets.

Major newsletters from CCM

- Crop Protection China News
- Herbicides China News
- Corn Products China News
- Forest Chemicals China News
- Dairy Products China News
- Sugar and Sweeteners China News
- Fermentation China News
- Food Ingredients China News
- Fine Chemicals China News
- Coatings & Adhesives China News
